C. Fiscal years covered by the Plan: 2025-2026, 2026-2027, 2027-2028

D. Governance: The SHIP Program is established in accordance with Section 420.907-9079, Florida Statutes and Chapter 67-37, Florida Administrative Code. Cities and Counties must be in compliance with these applicable statutes, rules and any additional requirements as established through the Legislative process.

E. Local Housing Partnership: The SHIP Program encourages building active partnerships between government, lending institutions, builders and developers, not-for-profit and community-based housing providers and service organizations, providers of professional services related to affordable housing, advocates for low-income persons, real estate professionals, persons or entities that can provide housing or support services and lead agencies of the local continuums of care.

F. Leveraging: The Plan is intended to increase the availability of affordable residential units by combining local resources and cost saving measures into a local housing partnership and using public and private funds to reduce the cost of housing. SHIP funds may be leveraged with or used to supplement other Florida Housing Finance Corporation programs and to provide local match to obtain federal housing grants or programs.

G. Public Input: Public input was solicited through a public meeting at the City of Largo's Community Development Advisory Board meeting that will be held on February 24, 2025. The Community Development Advisory Board consists of local residents from various neighborhoods in the community that provide input and recommendations to the Largo City Commission. Public input was solicited through the local newspaper in the advertising of the Local Housing Assistance Plan and copies of the Local Housing Assistance Plan were posted on the City's website, Largo City Hall, and the Largo Public Library Reference Desk. Incentives from the prior years' Affordable Housing Advisory Committee Reports were also incorporated into the Local Housing Assistance Plan.

H. Advertising and Outreach: SHIP funding availability shall be advertised in a newspaper of general circulation and periodicals serving ethnic and diverse neighborhoods, at least 30 days before the beginning of the application period. If no funding is available due to a waiting list, no notice of funding availability is required.

I. Waiting List/Priorities: A waiting list will be established when there are eligible applicants for strategies that no longer have funding available. Those households on the waiting list will be notified of their status. Applicants will be maintained in an order that is consistent with the time completed applications were submitted as well as any established funding priorities as described in this plan.

The following priorities for funding (very low income, Special Needs, etc.) described/listed here apply to all strategies unless otherwise stated in an individual strategy in Section II:

1. Special Needs: Very-Low, Low, Moderate
2. Essential Services Personnel: Very-Low, Low, Moderate
3. After Special Needs and Essential Services Personnel-by income level: Very-Low, Low, Moderate, 121-140%

J. **Discrimination:** In accordance with the provisions of ss.760.20-760.37, it is unlawful to discriminate on the basis of race, color, religion, sex, national origin, age, handicap, or marital status in the award application process for eligible housing. In addition, Pinellas County Code of Ordinances, Chapter 70 – Human Relations, Article II – Discrimination, prohibits discrimination in the areas of employment, government programs, and housing and public accommodations on the basis of race, color, religion, national origin, familial status, sex (including gender identity and gender expression), sexual orientation, and disability within the legal boundaries of Pinellas County, Florida, including all unincorporated and incorporated areas.

K. **Support Services and Counseling:** Support services are available from various sources. Available support services include but are not limited to: Homeownership counseling (pre and post), foreclosure counseling, a coordinated entry system for people experiencing homelessness, emergency financial assistance, elderly chore services and fair housing legal counseling.

L. **Purchase Price Limits:** The sales price or value of new or existing eligible housing may not exceed 90% of the average area purchase price in the statistical area in which the eligible housing is located. Such average area purchase price may be that calculated for any 12-month period beginning not earlier than the fourth calendar year prior to the year in which the award occurs. The sales price of new and existing units, which can be lower but may not exceed 90% of the average area purchase price established by the U.S. Treasury Department or as described above.

The methodology used is:

U.S. Treasury Department	X
Local HFA Numbers	

M. **Income Limits, Rent Limits and Affordability:** The Income and Rent Limits used in the SHIP Program are updated annually by the Department of Housing and Urban Development and posted at www.floridahousing.org.

"Affordable" means that monthly rents or mortgage payments including taxes and insurance do not exceed 30 percent of that amount which represents the percentage of the median annual gross income for the households as indicated in Sections 420.9071, F.S. However, it is not the intent to limit an individual household's ability to devote more than 30% of its income for housing, and housing for which a household devotes more than 30% of its income shall be deemed Affordable if the first institutional mortgage lender is satisfied that the household can afford mortgage payments in excess of the 30% benchmark and in the case of rental housing does not exceed those rental limits adjusted for bedroom size.

N. **Welfare Transition Program:** Should an eligible sponsor be used, a qualification system and selection criteria for applications for Awards to eligible sponsors shall be developed, which includes a description that demonstrates how eligible sponsors that employ personnel from the Welfare Transition Program will be given preference in the selection process.

O. **Monitoring and First Right of Refusal:** In the case of rental housing, the staff and any entity that has administrative authority for implementing the local housing assistance plan assisting rental developments shall annually monitor and determine tenant eligibility or, to the extent another governmental entity provides periodic monitoring and determination, a municipality, county or local housing financing authority may rely on such monitoring and determination of tenant eligibility. However, any loan or grant in the original amount of

$10,000 or less shall not be subject to these annual monitoring and determination of tenant eligibility requirements. Tenant eligibility will be monitored annually for no less than 15 years or the term of assistance whichever is longer unless as specified above. Eligible sponsors that offer rental housing for sale before 15 years or that have remaining mortgages funded under this program must give a first right of refusal to eligible nonprofit organizations for purchase at the current market value for continued occupancy by eligible persons.

P. **Administrative Budget:** A line-item budget is attached as Exhibit A. The city finds that the moneys deposited in the local housing assistance trust fund are necessary to administer and implement the local housing assistance plan.

Section 420.9075 Florida Statute and Chapter 67-37, Florida Administrative Code, states: *"A county or an eligible municipality may not exceed the 5 percent limitation on administrative costs, unless its governing body finds, by resolution, that 5 percent of the local housing distribution plus 5 percent of program income is insufficient to adequately pay the necessary costs of administering the local housing assistance plan."*

Section 420.9075 Florida Statute and Chapter 67-37, Florida Administrative Code, further states: *"The cost of administering the program may not exceed 10 percent of the local housing distribution plus 5 percent of program income deposited into the trust fund, except that small counties, as defined in s. 120.52(19), and eligible municipalities receiving a local housing distribution of up to $350,000 may use up to 10 percent of program income for administrative costs." The applicable local jurisdiction has adopted the above findings in the resolution attached as Exhibit E.*

Q. **Program Administration:** Administration of the local housing assistance plan will be performed by:

Entity	Duties	Admin. Fee Percentage
Local Government	SHIP Plans, Reports, Owner-Occupied Housing Rehabilitation/Replacement Administration, Affordable Housing Development Administration, review/monitoring Third Party Entity for Purchase Assistance Strategy, Rental Deposit/Eviction Prevention Strategies (depending on scale of program), Disaster Assistance Strategy (depending on event scale)	9%

Special flyers have been developed specifically to market the barrier removal grants as part of the Owner-Occupied Housing Rehabilitation Program. These flyers are available at City facilities, the Public Library and shared at City neighborhood events. Referrals to the program also come from the City's Community Standards Division (Code Enforcement) and the Police Department's Senior Services Program to the Owner-Occupied Housing Rehabilitation Program.

The City's Homeless Outreach Team connects people experiencing homelessness to shelter and services. City staff also refer callers to http://www.floridahousingsearch.org for affordable housing availability listings. The SHIP LHAP contains two strategies that can also help people experiencing homelessness or at risk of homelessness in Largo: Rental Deposit Strategy and the Eviction Prevention Strategy. The program aides in bringing vacant, dilapidated properties up to code either through rehabilitation or reconstruction of existing units and construction of housing units on vacant infill lots. The program may also provide assistance for multi-unit owner-occupied affordable housing developments.
Eligible costs include: property acquisition, demolition/clearance, site improvements, payment of impact fees, rehabilitation, and new construction. Houses rehabilitated or constructed will be sold to SHIP income-

eligible buyers. Financial assistance (Homebuyer Assistance) will also be provided to the homebuyer of the housing unit in the form of downpayment/closing cost assistance.

b. **Fiscal Years Covered**: 2025-2026, 2026-2027, 2027-2028

c. **Income Categories to be served**: Very low, Low and Moderate

d. **Maximum award:**

Developer Assistance: $260,000/unit

Homebuyer Assistance: Each of the following Maximum Award amounts listed below includes, $1,500 for Housing Quality Standards (HQS) or similar housing inspection (UPCS or INSPIRE), homebuyer education and pre-purchase housing counseling. The cost for the home Inspection and education/counseling is provided as a grant:

1. $76,500 ($75,000 downpayment assistance + $1,500) – Very -Low Income/Low Income
2. $41,500 ($40,000 downpayment assistance + $1,500)-Moderate Income

e. **Terms:**

1. Repayment loan/deferred loan/grant:
   a. Developer Assistance: Funds will be awarded as a repayment loan secured by a recorded mortgage and note. Project Delivery Costs will be provided as a grant.
   b. Homebuyer Assistance: Funds will be awarded as a deferred subordinate loan secured by a recorded subordinate mortgage and note. Very-low income loans revert to a forgivable loan at the end of the loan term. All other loans convert to payback, or partial payback/partial forgiven loans after a five-year deferment period (see Forgiveness and Repayment sections below).
   c. Project delivery costs are considered a grant.

2. Interest Rate: 0 % (both developer and homebuyer assistance)

3. Years in loan term:
   a. Developer Assistance: Not to exceed 2 years
   b. Homebuyer Assistance: Very-Low, Low, and Moderate: 25 Years

4. Forgiveness:
   a. Developer Assistance: Due to the high cost of redevelopment of parcels in the City that often includes demolition and clearance costs, and increasing construction/land costs, upon sale of the housing unit to an income-eligible household, the total project costs that exceed the sale price of the home may be forgiven (SHIP subsidy). The City will evaluate the developer's application to determine if anticipated amounts that would be forgiven are reasonable.

   b. Homebuyer Assistance:

Very-Low	100% of the loan will be forgiven at the end of the loan term
Low	50% of the loan will be forgiven at the end of the loan term
Moderate	No loan forgiveness

5. Repayment:

a. Developer Assistance:
When the home is sold to an eligible buyer or the two-year term expires, the amount of SHIP funds provided, less the SHIP subsidy (see Forgiveness above) are due and payable from the proceeds at re-sale to an income-eligible homebuyer. The Developer may include up to a 15% developer fee in its construction costs calculation that is used for determining the amount of payback or forgivable loan portion to the City.

b. Homebuyer Assistance:
The deferred subordinate mortgage becomes due based on the schedule below for each income level. For the loans that convert to payback after the deferment period, the loan will be repaid by the homeowner through monthly installments. For any deferred purchase assistance loans awarded prior to the technical revision adopted by Resolution No. 2358, at the end of the deferment period, a repayment schedule will be established in accordance with Largo's Loan Re-deferral/Payback Policy, as attached which may be amended from time to time.

Very-Low	100% forgiven at the end of the loan term
Low	Deferred for 5 years; payback ½ of loan amortized over the remainder of the loan term; other ½ of loan is forgiven at the end of the loan term
Moderate	Deferred for 5 years; full payback amortized over the remainder of the loan term

6. Default:
a. Developer Assistance: A default will be determined as: sale, transfer, or conveyance of property to a non-income eligible household or prior to completion of the unit; conversion to another use; failure to maintain standards for compliance with program requirements. If any of these occur, the amount of SHIP funds provided to the Developer, including any portion of the developer fee paid will be due and payable. A default will also occur if the property is not sold to an income eligible household within the term of the Developer's Affordable Housing Development loan.

b. Homebuyer Assistance:
i. In the event any of the following conditions occur, the loan shall be in default and payable to the City:
a. The sale of the property;
b. The property is leased or rented;
c. The property is refinanced with cash out to the borrower;
d. The property is used as collateral for a home equity line of credit;
e. The original borrower(s) is no longer the owner-occupant of the property;
f. The title is transferred, judicial sale levy, or foreclosure against the property; or
g. The qualifying homeowner(s) die(s) during the loan term (except as indicated below)

ii. If the qualifying homeowner(s) die(s) during the loan term, the loan may be assumed by

an income-eligible heir who will occupy the home as a primary residence (owner-occupant as indicated by Property Records and Homestead Exemption). If the legal heir is not SHIP eligible or chooses not to occupy the home, the outstanding balance of the loan will be due and payable.

iii. A Land Use Restriction Agreement will be recorded with the land for the shared equity provision (see below).

iv. Shared Equity: During the first ten-years, a shared equity provision will be utilized to maintain the affordability of the unit. Equity sharing is required unless the housing unit is re-sold to an income-eligible client at no more than the Maximum Purchase Price during the term of the equity sharing provision.

a. Shared Equity:

1. If the homebuyer sells or transfers the home within the first year of the purchase, 100% of the appreciation portion of the sales price plus the outstanding loan balance on the homebuyer assistance will be due to the City. The amount of equity payable to the City reduces by 10% per each full year for a ten-year period.
2. "Appreciation" is defined as the gain between the original purchase price by the homebuyer and the re-sale price, less any reasonable title and real estate costs associated with the re-sale and less the value of home improvements as defined in sub-section 3. below.
3. If the homebuyer has performed any permitted improvements on the property, the permitted value of the work shall be added to the basis of the initial sales price in the determination of the shared equity.
4. If the homebuyer sells the property to a family member, spouse or ex-spouse, or any other friend or acquaintance, the City may order an appraisal to determine if the sales price is equitable and require the shared equity amount to be determined by that valuation.
5. Under no condition shall the shared equity amount be more than double the original City assistance.
6. The City may waive the equity sharing provision during the ten-year period if the following conditions are met:
    a. The home has been in compliance up to the point of the re-sale;
    b. The home is sold during that ten-year period to another income eligible homebuyer, as certified by the City; and
    c. The home is sold at a price not to exceed the currently adopted Maximum Sales Purchase Price at the time of the re-sale.

v. If the home is foreclosed on by a superior mortgage holder, the City of Largo will make an effort to recapture funds through the legal process if it is determined that adequate funds may be available to justify pursuing repayment.

f. **Recipient/Tenant Selection Criteria**:

1. Applicants will be ranked for assistance based on first-qualified, first-eligible basis following receipt of

a complete application, income qualification, first mortgage approval, completion of the City-approved Homebuyer Education class, and a one-on-one housing counseling session.

2. The applicant must be a first-time homebuyer as defined in Section I.Q.
3. Property to be purchased must become the primary residence of the buyer.
4. Applicants must be able to obtain a first mortgage from a licensed lending institution. The first mortgage term cannot exceed a term of 30 years with a fixed rate. Subprime mortgages are ineligible.

g. **Sponsor Selection Criteria**:

Applications from project sponsors (developers) will be reviewed on an ongoing basis, pending funding received. The following factors will be taken into consideration when reviewing proposals;

1. Capacity and capability to carry out the project, including financial capacity and capability;
2. Experience in completing affordable housing projects;
3. Leveraging;
4. Timeframe for project completion;
5. Compatibility with the City's Comprehensive Development Code;
6. Use of green building and disaster hardening features/techniques;
7. Funding Availability; and
8. Whether the sponsor employs personnel from the Welfare Transition Program.

h. **Additional Information**:

1. The property must be in Largo City limits (Property Tax Code "LA").
2. Eligible housing units include: single-family detached homes, townhomes and condominiums.
3. All buyers receiving Homebuyer Assistance must complete a City-approved eight (8) hour homebuyer education class through a HUD-approved housing counseling agency. The homebuyer education class must be taken prior to closing.
4. Other state, federal, county, private and homeowner contributions may be leveraged with SHIP funds.
5. Applicants using the Homebuyer Assistance will be required to contribute $1,000. Required pre-paid items that the homebuyer pays, such as earnest money deposit, appraisal fees, home inspection fees, and homeowner's insurance, qualify as part of this contribution. In the case of Habitat for Humanity projects, the homebuyers contribute sweat equity hours toward their home purchase.
6. The sales price cannot exceed the City's Maximum Purchase Price (see Section I.L. of this document).

The Disaster Strategy provides assistance to households following a disaster as declared by the President of the United States or Governor of the State of Florida. This strategy will only be implemented in the event of a disaster using any funds that have not yet been encumbered or with additional disaster funds allocated by Florida Housing Finance Corporation. SHIP disaster funds may be used for items such as, but not limited to:

1. Interim repairs to avoid further damage;
2. Permanent repairs to correct code/safety issues caused by storm damage;
3. Tree and debris removal required to make the individual housing unit habitable;
4. Payment of insurance deductibles for rehabilitation of homes covered under homeowners' insurance policies;
5. Temporary rent and utility payments up to twelve months to assist tenants financially impacted by a declared disaster;
6. Temporary mortgage, Homeowners Association (HOA)/condo association fees and utility payments up to twelve months to assist homeowners financially impacted by a declared disaster (HOA/condo assessment fees are not eligible);

8. Strategies included in the approved LHAP that benefit applicants directly affected by the declared disaster; and/or
9. Other activities as proposed by the City and approved by Florida Housing.

Assistance will only be provided for repairs not covered by insurance or other disaster programs.

    a. First-qualified, first served, with priority for very-low income households.

g. **Sponsor Selection Criteria**: A sponsor may be selected during a disaster declaration in or to provide project delivery services for assistance to households in the community. Sponsors selection will be based on an agency's experience and capacity to carry out project delivery. A project delivery fee will be determined based on the scope of the project based on the type of disaster and assistance being provided to households.

h. **Additional Information**:

1. Annual funding is not allocated toward this Strategy. In the event of a disaster declaration, unencumbered funds and/or additional funds award through Florida Housing Finance Corporation for the disaster will be used to fund this Strategy.

All applicants will still be required to sign an agreement that includes duplication of benefits requirements that any funding received for the same items requested by this Program shall be deducted from the funding amount if not yet paid or refunded to the City SHIP Program for any duplicate payments.

III. LHAP Incentive Strategies

In addition to the **required Incentive Strategy A and Strategy B**, include all adopted incentives with the policies and procedures used for implementation as provided in Section 420.9076, F.S.:

A. Name of the Strategy: **Expedited Permitting**
Permits as defined in s. 163.3177 (6) (f) (3) for affordable housing projects are expedited to a greater degree than other projects.

Provide a description of the procedures used to implement this strategy:

The City of Largo shall endeavor to expedite processing of all affordable housing projects (AHP).

Applicants desiring an AHP designation will apply to the Housing Manager in the Community Development Department. The Housing Manager will determine if the project meets the AHP criteria within five (5) working days of receipt of all required application information.

Once the project receives the AHP designation, the Housing Manager, or his/her designee, will provide the developer an approved "Expedited Permitting for Affordable Housing" form that can be submitted to the Building Division when they apply for permits. The Building Division then moves the permit application into priority position for reviews by the applicable City Departments/Divisions. AHP projects will be processed before all non-AHP projects.

The Housing Manager or his/her designee will provide technical assistance for the developer and its contractors to assist with navigating the review process for the issuance of site plan and permit approvals. The City's Housing Division website has a variety of information and resources in one location.

Recent Housing for All code amendments for small-type housing such as duplexes triplexes, and quadplexes can now be approved through a small-scale site plan review process which reduces the time and cost of site plan approval.

The following item from AHAC Report recommendations is still in process of implementation:

- Provide how-to video/guide on City website for new permitting/site plan review software
- Once sufficient data is available from the new permit system, include estimated review times for affordable housing on the City's website.

B. Name of the Strategy: **Ongoing Review Process**
An ongoing process for review of local policies, ordinances, regulations and plan provisions that increase the cost of housing prior to their adoption.

Provide a description of the procedures used to implement this strategy:

The City has adopted a policy in the Housing Element of the Comprehensive Plan requiring the review of all city policies, prior to adoption, to determine their impact on the cost of housing (Objective 1.1.7-Housing Element). The review process includes impact review on items such as property tax or impact fee changes in City Commissions memos along with an annual review of the comprehensive impacts from any adopted ordinance, regulation, or policy changes from the prior year as part of the annual SHIP Report. Ongoing training for staff members that write Commission memos has also be implemented.

C. Other Incentive Strategies Adopted:

Development Fees: SHIP funds may be utilized to pay impact fees, infrastructure improvements, and development fees on behalf of the developer/builder for qualified set-aside units, provided program funds are available. The incentives have been adopted in Chapter 14 of the Largo Comprehensive Development Code and in accordance with the Local Housing Assistance Plan. Developers may apply through the Affordable Housing Development Program for such incentives.

The City has implemented the following AHAC Report recommendations:

- Adoption of an ordinance to waive City parkland and facilities impact fees for affordable housing units in effective for a period of 5 years.

The following items from AHAC Report recommendations are still in process of implementation:

- Research what other fee waivers other jurisdictions are using for affordable housing incentives.
- Continue to seek methods to streamline approval processes

Code Lien Waiver Program for Affordable Housing: The City adopted a Code Lien Waiver Program for non-profit affordable housing developers. The program allows code liens to be administratively forgiven if a residential property with code liens is purchased by a non-profit affordable housing developer for rehabilitation/reconstruction of the housing unit. This program eliminates the process and risk of going before the Code Enforcement Board to request a lien reduction, which was a barrier for affordable housing developers to risk purchasing properties with significant code liens.

Transfer of Development Rights: Developments may utilize the City's "Transfer of Development Rights" codes to transfer the density and intensity for affordable housing units from environmentally sensitive parcels of land to areas more suited for development. The code provisions for the utilization of Transfer of Development Rights are located in Section 4.7 of the Largo Comprehensive Development Code.

Flexible Densities: The City provides density bonuses throughout the community, with more substantial bonuses being in the Community Redevelopment Districts (CRDs) and Tri-City Activity Center to focus higher density housing near employment and transit areas. Largo Mall Activity Center includes a density bonus for design standards, but currently does not offer a density bonus for affordable housing.

The City adopted significant code amendments as part of its Housing for All initiative (included several AHAC recommendations). The amendments included allowing accessory dwelling units citywide, setting new development standards for small-type and medium-type housing (with a density bonus option), and expanding the types of housing allowed in Institutional land uses.

The following items have been implemented from AHAC Report recommendations:

- Eliminated the density cap of 18 units/acre in Citywide density bonus codes in Chapter 14 of the Largo Comprehensive Development Code (CDC) (still retain language with cap of next highest land use category).
- Removed cap on the percentage of units that can be affordable in developments for owner-occupied and rental housing.

The following item will be researched from the AHAC Report recommendations:

- The City will further explore the legality and feasibility of Transfer of Development Rights from undevelopable City properties with residential land uses to other sites in support of development of affordable housing.
- Continue to seek incentives for housing households between 30-50% AMI
- Develop a senior housing density bonus, including obtaining feedback from senior housing developers on what incentives are necessary to develop senior/supportive housing.
- Use consistent methods for calculating density across the City (ongoing effort as plans and

codes are updated)

Additional density bonuses are available for the creation of affordable housing in the Clearwater-Largo Road Community Redevelopment District, West Bay Drive District and Tri-City Special Area Plan. Information on these density bonus incentives are included on the City's Housing Division website.

Reservation of Infrastructure Capacity: Largo does not provide this incentive because infrastructure capacity has not been an issue in housing development in the City.

The City will pursue/research the following AHAC Report recommendations:

- Continue to analyze implementation parameters of the graywater density bonus legislation and monitor the impact of such.
- Seek to consider new methodologies/partnerships for sustainable design that can help offset infrastructure impacts.
- Incorporate universal design components into development incentives to increase the number of units accessible for people with disabilities and to enable aging in place.
- Research what other jurisdictions are requiring or incentivizing for increasing the number of accessible homes in their community (Universal Design©, Uniform Federal Accessibility Standards (UFAS), or other standards); research the cost impact of including requirements for units to meet Uniform Federal Accessibility Standards (UFAS) and potential incentives to have development incorporate more UFAS components in their development.

Parking & Setback Requirements: Reduced parking requirements are permitted for Assisted Living Facilities based on the mobility of the clients served and the medical accommodations provided. The City provides offsets for enhanced bike parking amenities. The Development Controls Officer (DCO) has the authority to administratively approve up to a 20% reduction in setbacks on a case-by-case basis if warranted. The parking standards are established in Subsection Section 9 of the Largo Comprehensive Development Code. Other design standards, such as zero lot line development, and shared parking provisions/reduction in parking requirements are available in the City's codes.

The City has implemented the following from AHAC Report recommendations:

- Create a parking requirement offset for designated rideshare parking spots.

Public Land Inventory: An inventory of locally owned public lands suitable for affordable housing will be maintained and a surplus land inventory list adopted every three years. All properties identified will be presented to the City Commission for inclusion in the Largo Affordable Housing Program. The criteria for determining suitability are as follows:

1. Land Use
2. Resiliency
3. Environmental/Social Justice

Support of Development Near Transportation Hubs: The Comprehensive Plan supports development near transportation hubs and major employment centers primarily through the focus on activity centers. The Comprehensive Development Code (CDC) recognized the Downtown Multimodal Activity Center (DMAC) which includes both CRD's within its boundaries and the Largo

Mall Activity Center (LMAC). Within these centers, the City created a new land use designation of Residential High, which allows for increased density of up to 30 dwelling units/acre to encourage increased development in the Activity Centers.

The City will pursue implementation of the following from the AHAC Report recommendations:

- Provide an increased density bonus for affordable housing in the Largo Mall Activity Center (currently limited to the citywide density bonus available in Chapter 14 of the CDC).

Flexible Lot Configurations: The following alternative development standards are permitted for affordable housing developments: (A) Hammerheads and Y-shaped turn-a-rounds may be used in lieu of cul-de-sacs; (B) Transfer of development rights is permitted from conservation areas to upland areas; (C) Zero lot line developments are allowed in all land use designations; (D) Density exchange for open space and other community amenities in order to enhance environmental quality is permissible; (E) There are no minimum floor area requirements for residential uses within residential land use designations; (F) Infill lots either subdivided prior to 1983 or as platted at less than minimum lot size can build back one single-family home on these parcels if they can meet the other development requirements (such as setbacks); (H) Clustering of dwelling units is permitted on lots less than 5,000 square feet, provided the total site does not violate the gross density permitted; and (H) There are no minimum lot widths contained in the CDC. The alternative development standards are established in Chapter 14 and Section 8 of the Largo Comprehensive Development Code.

The City has implemented the following from AHAC Report recommendations:

- Amend the Development Code to allow a single-family home to be built back on a non-conforming lot.
- Improved flexibilities for building on smaller lots and/or that could accommodate different types/scale of housing through the code amendments from the Housing for All initiative.
- Provided guidance on the Housing Division website on eligible impact free credit items for certain amenities provided on-site.
- Updated affordable housing development information guide to link with QR code to Housing Division website.

Affordable Accessory Residential Units (ADUs): ADUs are permitted on the City's Comprehensive Development Code (CDC) in the West Bay Drive and Clearwater-Largo Road CRDs only. Section 163.31771(4), Florida Statutes requires a property owner to sign an affidavit attesting that the unit will be "rented at an affordable rate to an extremely-low income, very-low-income, low-income, or moderate-income person or persons".

An ADU Incentive Program is available in the West Bay Drive CRD where a property owner can be reimbursed up to $8,000 for permitting and review fees for the ADU once the final inspection is passed on the unit.

The following items have been implemented from the AHAC Report recommendations:

- Modify the City's Development Code to allow ADUs citywide to expand naturally occurring affordable housing units and accommodate aging family members.
- ADU Conditions/Design Standards:

- Continue requirement of either primary home or ADU to be owner-occupied.
- Eligibility for garage conversions as an affordable option expanding.
- Reducing parking restrictions for ADUs

The City will pursue implementation from the AHAC Report recommendations:

- Explore the use of funds to assist with construction of ADUs.
- Research feasibility and funding of creating a set of standardized design plans for ADU's that could be provided at no-cost or small-cost to homeowners to reduce this cost burden for developing an ADU on their property.

Modification of Street Requirements: The Affordable Housing Chapter of the CDC permits some flexibility in design standards-such as Y-shaped turnarounds in lieu of cul-de sacs, reduction of right- of-way from 50 feet to 36 feet, permitting sidewalks on one side of the street instead of both sides.

The City implemented the following from the AHAC reports:

- As an incentive to reduce long term maintenance costs for homeowners, allow developments that contain a majority of affordable housing units and meet City engineering standards to have the option to dedicate the internal streets as a public right- of-way.
